

JMC

Vigus

Jiangling Motors Co. Ltd. (JMC) is one of the most established vehicle brands in China, and sets the standard on quality, safety, and technological advancement in its constant pursuit of growth. With a long history of producing industrial and commercial vehicles, JMC continues to enrich its product line-up.

Vigus

THE VIGUS SINGLE CAB

is engineered for real commercial performance. Designed for business owners, tradesmen, and fleet operators, the Vigus Single Cab delivers dependable durability, load strength, and efficient diesel power at exceptional value. Purpose-built for daily operations, it offers the reliability and practicality needed to keep you moving forward.

POWERED FOR PERFORMANCE

The Vigus Single Cab brings JMC's strong design DNA into a form built for real work. Tough in appearance and tougher in capability, it's prepared for construction, deliveries, fleet operations, and trade environments.

This is the JMC Vigus. Part predator. Part vehicle. 100% beast.

SEALED DASHBOARD FOR ENHANCED DURABILITY AND NOISE ISOLATION

BLUETOOTH CONNECTIVITY

BLACK FRONT BUMPER

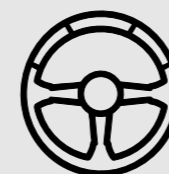

RADIO + 2 SPEAKERS

REAR SENSOR AS STANDARD

CHROME EXTERIOR HANDLES BUILT FOR RUGGED USE

FOUR-WHEEL DISC BRAKES

17" ALLOY WHEELS + FULL-SIZE SPARE TYRE

MULTIFUNCTION STEERING WHEEL WITH AUDIO CONTROL

3.5-INCH INFO SCREEN

EFFECTIVE AIR CONDITIONING FOR DEMANDING WORKDAYS

DEPENDABLE POWER. CONSISTENT OUTPUT.

Under the hood, the Vigus Single Cab is powered by the reliable JX4D25 2.5L turbo diesel engine, delivering strong, efficient performance for everyday work. Paired with a durable 5-speed manual transmission, it ensures smooth, predictable power across all driving conditions.

POWERED FOR PERFORMANCE

Experience dependable strength and efficiency with the Vigus Single Cab. Built as a versatile workhorse, it delivers smooth, productive performance on every route and worksite.

High-torque 2.5L diesel engine

The JX4D25 Euro 2 diesel engine delivers strong low-end torque and reliable power, making it ideal for commercial hauling and daily work demands.

Turbocharged performance

The turbocharger boosts responsiveness and maintains steady power delivery across changing driving conditions, even under load.

5-speed manual transmission

The 5MT gearbox provides smooth, predictable shifting and durable performance suited to high-duty commercial use.

Fuel-efficient operation

Optimised diesel mapping ensures cost-effective running, helping reduce operational expenses for businesses and fleets.

Stronger impact absorption

The ladder-frame chassis provides a tough, stable foundation engineered to withstand demanding work conditions, offering improved impact absorption and structural safety.

Built for heavy-duty performance

The independent torsion-bar front suspension and reinforced steering geometry deliver strong handling and a comfortable ride, even when operating under load.

Better durability and load stability

The heavy-duty leaf-spring rear suspension maintains even weight distribution for enhanced durability, stability, and reliable load-carrying performance.

CONFIDENCE WHERE IT COUNTS

Get the reassurance your business needs with intelligent systems that help protect drivers, cargo, and productivity.

Antilock braking system (ABS)

ABS prevents wheel lock-up during emergency braking, helping you maintain steering control and avoid obstacles.

Electronic brake-force distribution (EBD)

EBD distributes brake pressure between the front and rear wheels for more stable and consistent braking under varying load conditions.

Electronic stability programme (ESP)

The ESP system enhances control by reducing wheel slip and improving stability on slippery or uneven surfaces, especially under load.

Four-wheel disc brakes

Large, ventilated disc brakes deliver strong stopping power and improved heat dissipation, ensuring reliable braking performance.

120km/h overspeed alarm

An audible safety alert warns the driver when the vehicle exceeds 120km/h, encouraging safer driving habits.

Rear-parking sensor

Rear sensors assist with reversing and tight-space manoeuvres, helping reduce the risk of minor impacts and improving low-speed awareness.

A PURPOSE-BUILT INTERIOR

A practical, comfortable cabin designed to support long working hours and efficient daily use.

Multi-function steering wheel

Easy access to audio controls for safer, hands-on-wheel operation.

Two-way adjustable steering column for personalised comfort.

3.5" information display

Clear, functional instrument cluster for essential driving data.

Designed for easy visibility during long workdays.

Practical cabin layout

Spacious driver-focused cabin with ample legroom.

Smart storage options, including a central glove compartment.

Manual air conditioning

Effective cooling performance for long hours on the job.

Durable, easy-to-operate climate controls.

USB & 12V charging ports

Keep devices powered throughout the workday.

Ideal for fleet tools, mobile devices, and route equipment.

Fabric seats

Comfortable, hard-wearing fabric designed for commercial use.

Four-way manual adjustment for tailored support.

Electric side-view mirrors

Adjust mirrors electronically for better visibility and safer manoeuvring.

Anti-glare rearview mirror

Reduces headlight glare from vehicles behind for improved night driving comfort.

Speed-sensing door locks

Doors lock automatically as the vehicle gains speed for added safety.

TECHNICAL SPECIFICATION

MODEL		VIGUS SC 4X2
Dimensions	Body Dimension (L*W*H) (mm)	5 305 × 1 905 × 1 835
Engine	Model	2.4 PUMA
	Displacement (L)	2,4
	Engine rated power (kW/rpm)	103
	Maximum engine torque (N·m/rpm)	310
	Compression ratio	17,5
	Fuel tank capacity (L)	64
Control	Transmission type	5-speed MT
	Front suspension	Double wishbone spiral spring independent suspension
	Rear suspension	Leaf spring non-independent suspension
	Steering system	Rack and pinion, crumpled steering column
	Four-wheel disc brake	Std
	265/65 R17	Std
	Hydraulic power steering	Std
Exterior	Power windows	Std
	Power rear-view mirror	Std
	LED daytime running lights	Std
	High mount stop light	Std
	Front fog lights	Std
	Door-open warning signal light	Std
	Monochrome metallic paint	Std
	Aluminum alloy wheels	Std
	Steel wheel hub spare tyre	Std
	Chrome outer handle	Std
	Chrome internal handle	Std
	Cargo box rubberizing	Std
	Cargo box rope hook	Std
	Rear cargo compartment guardrail	Std
	Side step	o
Interior	Radio	Std
	4 speakers (2 high and 2 low)	Std
	Bluetooth	Std
	Front USB charging port	Std
	Vehicle information display	Std
	Cruise control	Std
	Adjustable steering wheel (two-way)	Std
	Multifunctional steering wheel (sound control)	Std
	Central lock with foldable remote	Std
	Automatically lock when driving	Std
	Adjustable headrest height	Std
	Central glove box	Std
	Air conditioning (pollen and PM2.5 filtration)	Std
	3.5" dot matrix screen instrumentation	Std
	Reading light	Std
Safety	Mechanical handbrake	Std
	Child lock	Std
	Rear sensors	Std
	ISOFIX child seat fixture	Std
	ABS+EBD	Std
	Driver's air bag	Std
	Front passenger seat air bag	o
